<b>10.30 AM - 10.45 AM</b>	PLATO Address of Welcome and Introduction
<b>10.45 AM - 11.45 AM</b>	<p><b>VDA &amp; AIAG FMEA Alignment</b>  <i>Ronny Jakubasch, Subject Specialist at Robert Bosch GmbH and Member of the FMEA Working Group</i></p>
<b>11.45 AM - 01.15 PM</b>	Lunch and Networking Break
<b>01:15 PM - 04.15 PM</b>	<p><b>Be Prepared for the New Age of FMEA</b>  <i>Marcus Schorn (CTO PLATO)</i></p> <p><i>Coffee break included</i></p> <p>FMEA leaves the pure method-corner. It is now defined as an important, integrated part of the development process. Thus the communication between the process participants before, after and during the FMEA becomes a standard. Many features that are currently only available exclusively to e1ns users have now officially become part of the requirements for a state-of-the-art FMEA.</p> <p><b>Learn, how to carry out the new defined six steps to perform an FMEA</b></p> <p>Through the 6 steps of the FMEA we show the enormous benefits e1ns brings to the FMEA and the entire development process.</p> <ul style="list-style-type: none"> <li>• 1st Step: Scope Definition</li> <li>• 2nd Step: Structure Analysis</li> <li>• 3rd Step: Function Analysis</li> <li>• 4th Step: Failure Analysis</li> <li>• 5th Step: Risk Analysis</li> <li>• 6th Step: Optimization</li> </ul>
<b>04.15 PM - 05.00 PM</b>	<b>Final Words on the PLATO Network and Networking Opportunity</b>
<b>05.00 PM</b>	<b>Conference Conclusion</b>
